Astron. Astrophys. **311**, L17–L20 (1996)

Due to an object confusion in our observation log file one DAO star is misidentified. The DAO star discussed is HS 2033+0507, not HS 2033+0327 as claimed in the letter. The coordinates of HS 2033+0507 are:

$$\alpha = 20^{\text{h}}33^{\text{m}}59^{\text{s}}.8, \quad \delta = 05^{\circ} 07' 19'' (1950)$$

and its apparent magnitude is $B = 16^{\text{m}}.7 \pm 0^{\text{m}}.5$.

These numbers should replace row 11 of Table 1.
