Astron. Astrophys. **314**, 112–114 (1996)

The paper was originally published in *Astronomy & Astrophysics*, vol. **314**, pp. 112–114 (1996). An error occurs on the measured position angle of the discovered star. In section 3.2, Eq. 6, one should read

$$\begin{cases} \rho = 0'.1100 \pm 0'.0033 \\ \theta = 167^\circ \pm 1^\circ \end{cases}$$
